INASPETTATA PUREZZA

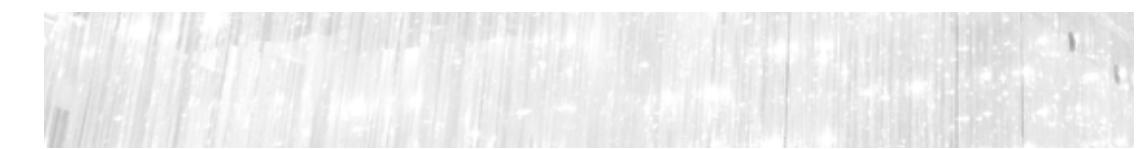

MADE IN ITALY | HANDMADE | DESIGN

la luce disegna ogni istante della vita.

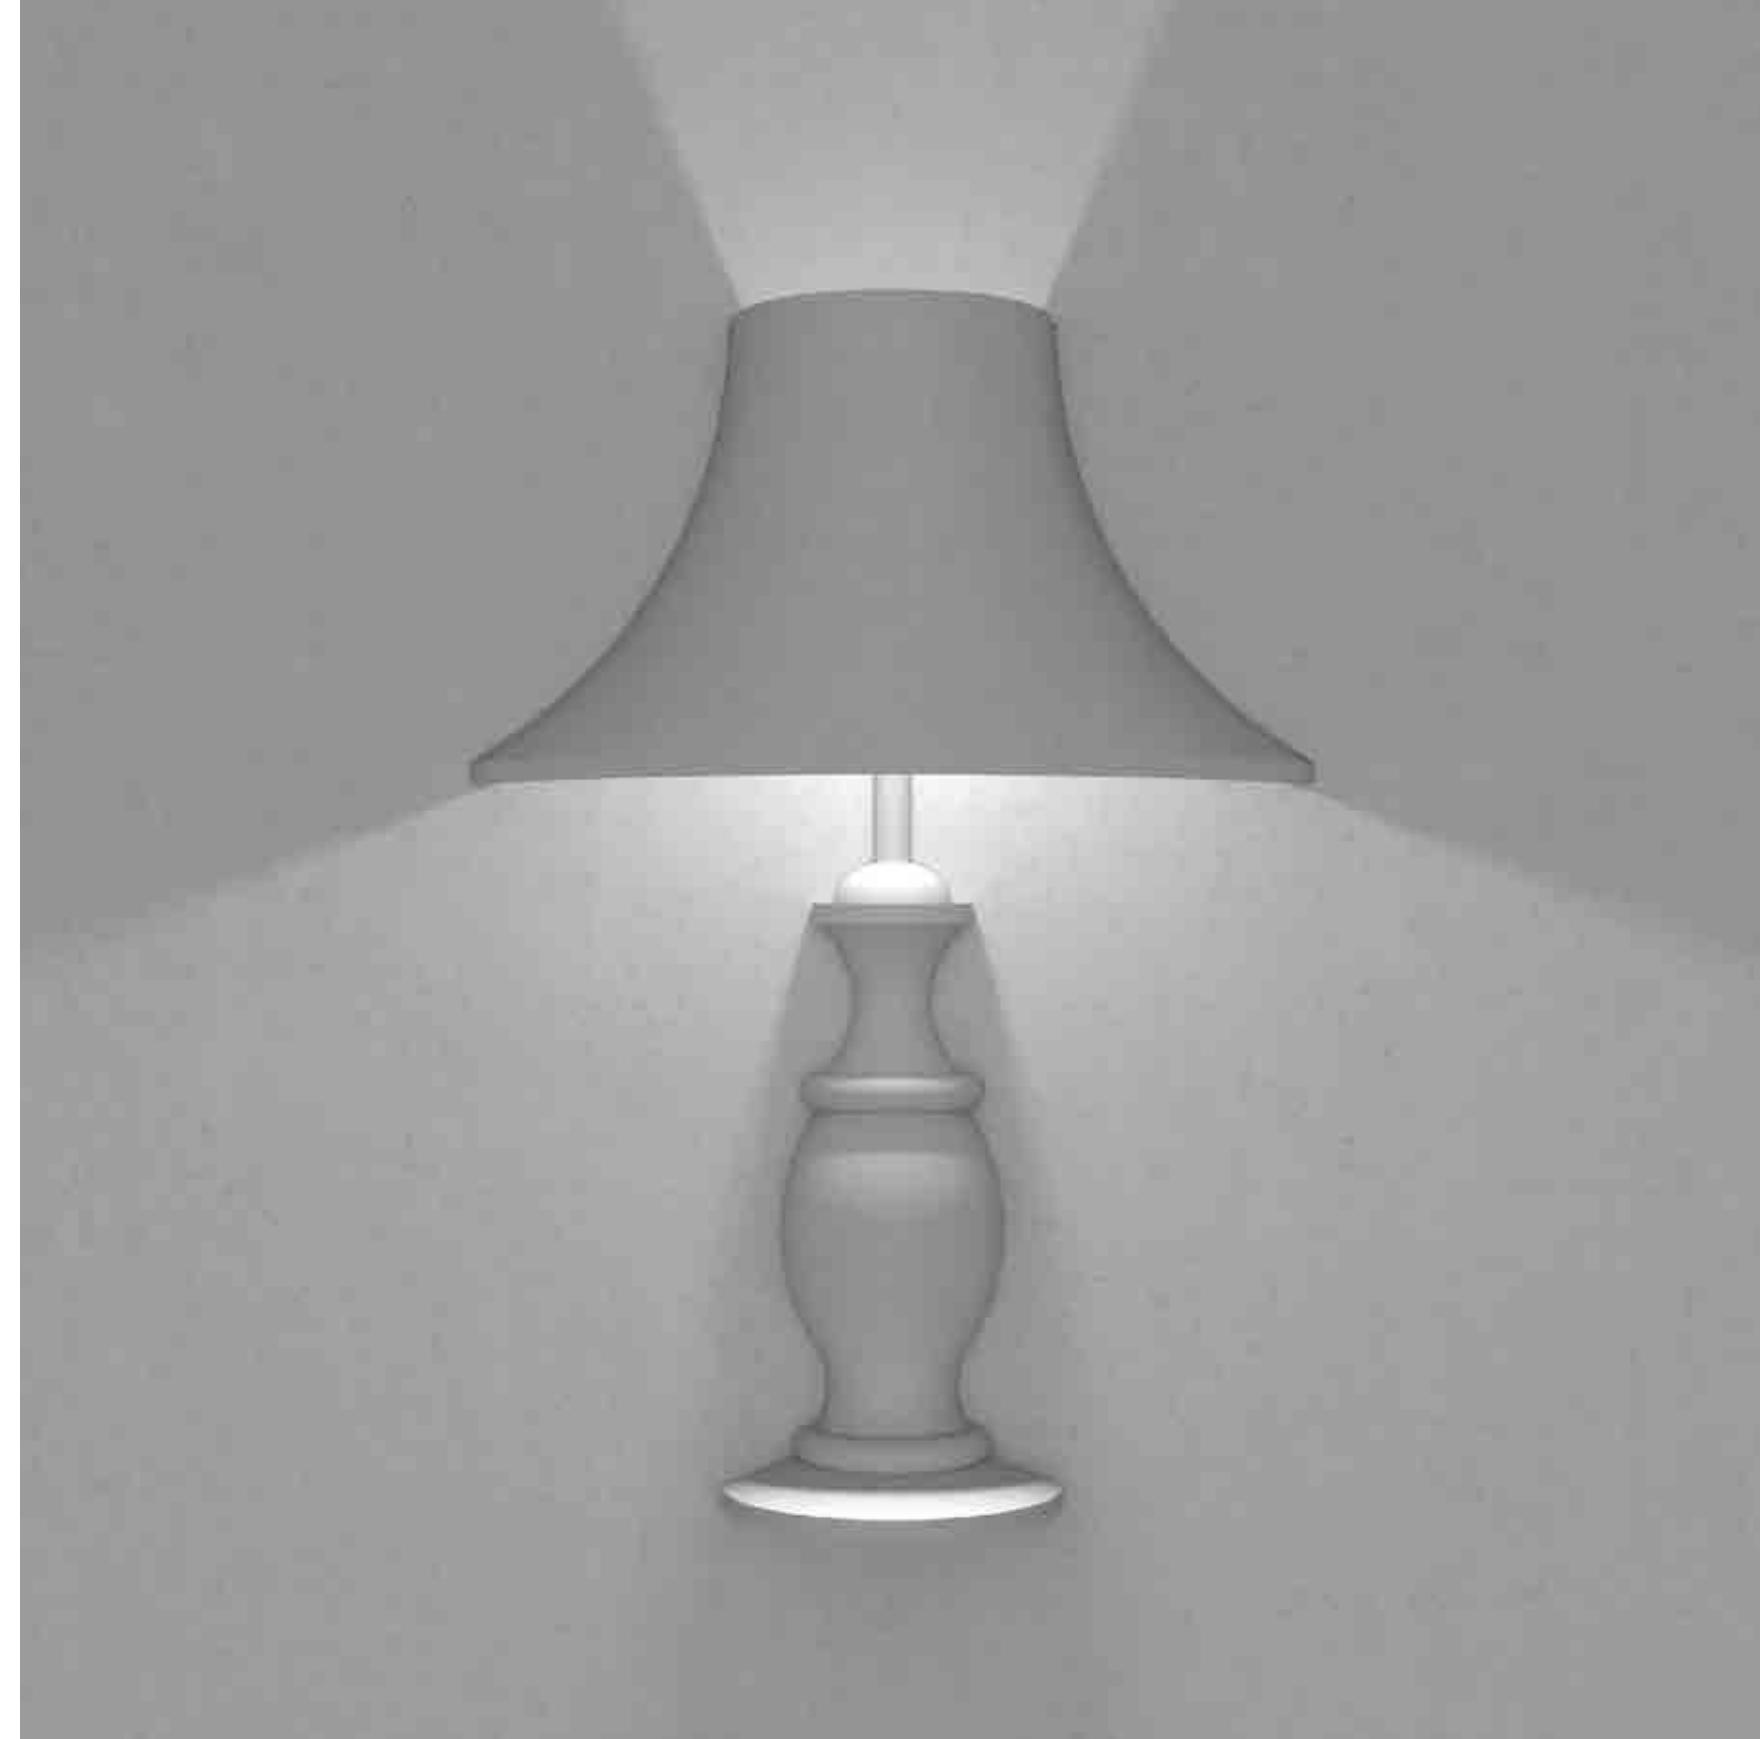

**White Classic*

ICONICA | ESSENZIALE | INCONFONDIBILE

Un'idea che prende forma, plasmandosi dalla propria sostanza per disegnarne la realtà. Da quest'intuizione nasce **Glamp*, una lampada di design realizzata da Mastri artigiani italiani e scolpita nel gesso purissimo, come sospesa nell'attimo della sua creazione. La tradizione millenaria della lavorazione del gesso diventa design.

*The Idea takes place. Shaping his own substance to build the surrounding reality. This is where **Glamp*, was born.
A light fixture carved from gypsum by the finest Italian craftsmanship Masters. Suspended forever in the moment of his creation. The millennia-long tradition of plaster-art evolves in seamless design perfection.*

The LED technology makes it powerful, safe and cost-effective.

Perfettamente integrata nell'ambiente, quasi invisibile da spenta, *Glamp esalta la purezza della luce, vera e propria materia architettonica al servizio dello spazio circostante. La luce filtrata dal gesso purissimo dà volume e corpo alla parete e agli arredi vicino ai quali viene inserita modificando completamente l'atmosfera.

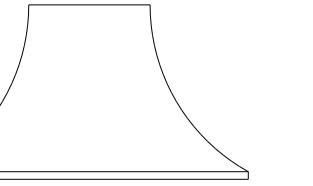

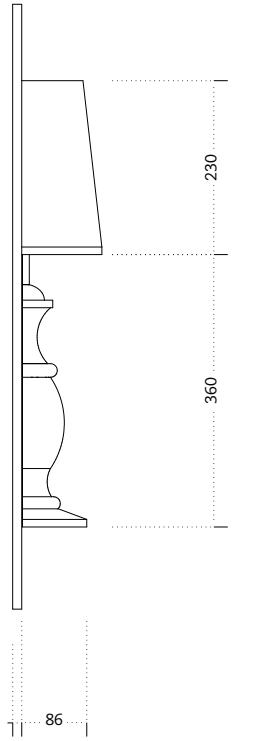

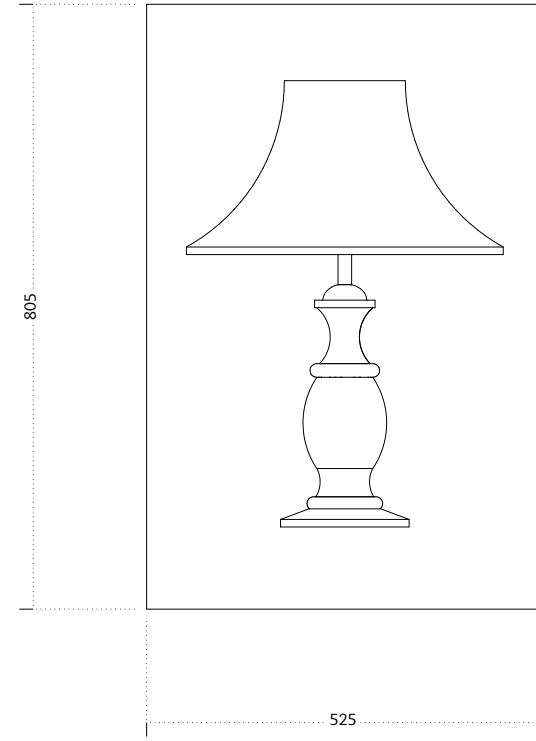

*Seamlessly integrated in the design, invisible when turned off, *Glamp glorifies the light in all his purity. "Materia" in his proper essence.*

The light diffused from the plaster enhances the quality of the surrounding atmosphere at the next level.

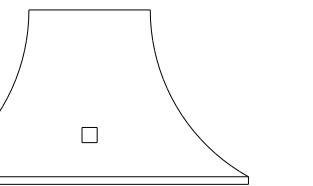

Su una parete lavorata **Glamp* propaga la luce in un gioco di spessori e volumi, creando un'atmosfera onirica e surreale. Le incisioni diventano materiche, la luce si irradia tutt'attorno, disegnando la parete in un'alternanza di pieni e vuoti.

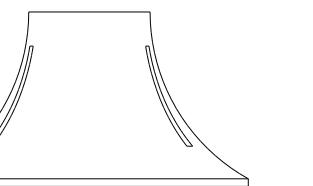

*On a carved wall surface *Glamp shines between voids and solids, volumes and planes creating a unique and dreamy atmosphere. The engravings become alive and the light radiates all around.*
